Phone: 305-348-2605
Fax: 305-348-6700

Date: December 4th 2012

Goal: Investigate
x-ray effects
on signals.

Description

- Use the modern lab x-ray source
- Detectors need to be light-tight
- Do not touch detector active area
- Record and graph data
- Take notes on equipment/ setting associated with each data file name
