

MAST Proton Detector: Hardware

FIU Experimental Plasma Physics Research Group	Date: December 4th 2012
Physics Department, CP204 11200 SW 8TH ST Miami, FL 33199 physics.fiu.edu Phone: 305-348-2605 Fax: 305-348-6700	Goal: Secure vacuum chamber support.

Description
Design secure connectors to replace cable ties securing support for vacuum chamber
Create machine drawings for connectors and submit them to Ramona
Once approved submit machine drawings to Machinist
Install in vacuum system

hardware	
machine design, basic
