

MAST Proton Detector: Test Equipment

FIU Experimental Plasma Physics Research Group

Physics Department, CP204
11200 SW 8TH ST
Miami, FL 33199
physics.fiu.edu
Phone: 305-348-2605
Fax: 305-348-6700

Date: December 4th 2012

Goal: Investigate signals on equipment.

Description
Use different combinations of:
4 preamps, 4 amps, 4 detectors
Record and graph data
Take notes on equipment/ settings associated with each file name

electronics
data collection/ analysis
